

The Proven  
Air Purification  
System used in  
Space is now  
Available on  
Earth!

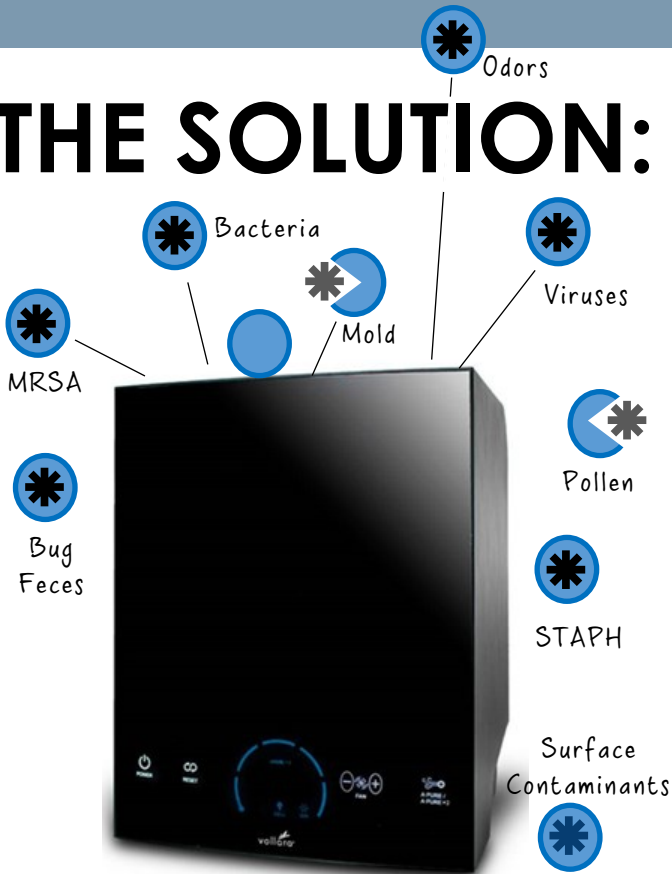

## ActivePure Certified Space Technology

### THE PROBLEM:

Indoor spaces may have pollutants in the air and on surfaces, such as harmful viruses, bacteria, mold, fungus, and VOCs. Left untreated they can cause a variety of health problems.

### THE SOLUTION:

VOCs

The Vollara Air & Surface Pro with ActivePure Technology fills up to a 2,000 sq. ft. area with safe oxidizing molecules that reduce and inactivate harmful pathogens and contaminants that are in the air—and on surfaces.

"ActivePure proactively reduces bacteria, mold, fungus, and viruses, including bird and swine flu, the corona cold virus, and the virus that causes COVID-19.\*"

\*<https://Vollara.ActivePure.com/scientific-proof>

The patented ActivePure technology was initially developed for and is used in the International Space Station.

The Vollara Air & Surface Pro

ActivePure Technology is one of only 75 technologies that have been inducted into the Space Technology Hall of Fame.

***Pushes the Solution to the Pollution!***

If you don't use an  
air purifier, you are  
the purifier.

We breathe up to 3,000 gallons of air daily

## Who Uses ActivePure Technology?

A short example list of clients:

- Used in the **International Space Station**, at the Ground Zero Museum, the **Pentagon**, the Liberty Bell Museum, and hundreds of thousands of hospitals, doctor and dental offices, nursing facilities, hotels, schools, and homes.
- Over **2,000 units** were placed in Washington State government locations.
- Nearly **30 Major League Baseball teams** now have ActivePure technology in their facilities.
- ActivePure Technologies has a partnership with Mitsubishi Brazil to mass-produce its **first in-automobile air purifier**,—AutoPure.
- **The Cotton Bowl** and the **Texas State Capitol**.
- During a natural gas leak in Aliso Canyon, California, in late 2015 and early 2016, thousands of residents were able to stay in their home after **Southern California Gas** ordered 10,000 units and distributed them to residents.
- The Pine View School **community donated** 130 units to be placed in every classroom.
- This is a very small example of thousands of clients
